Government Takes Action To Protect Fruit Growers

Order-in-Council Passed To Prevent Dumping Of Surplus Fruit From United States On Canadian Markets And Depressing Prices To Unprofitable Levels—Action Approved By Niagara Peninsula Growers.

Announcement of the passing of an Order-in-Council to prevent the dumping of United States fruit and vegetables in Canada was received with much approval by prominent fruit growers of the peninsula who have been affected by the heavy imports of United States peaches, pears, and plums.

The order applies to ten specific commodities namely, apples, cantaloupes, celery, onions, peaches, pears, plums, prunes and tomatoes. The order was transmitted to Customs officers by R. W. Broadbent, Commissioner of Customs, and is in the following terms:

"Under the authority of Section 43 of the Customs Act and Order-in-Council No. 1907, dated Aug. 20, 1929, the Minister of National Revenue hereby values for duty certain fruits and vegetables when imported from the United States as follows: Apples 6 cents per pound; cantaloupes, 13 cents per pound; celery, 10 cents per pound; onions, 4 cents per pound; peaches, 12 cents per pound; pears, 9 cents per pound; plums and prunes, 8 cents per pound; tomatoes, 19 cents per pound; such values to remain in force until otherwise ordered. The provisions of Section 6 of the Tariff Act do not apply in this case."

The leading fruit growers commented as follows on the order: "Colonel A. Marshall, Smith, Wisconsin: 'While I do not care to say much, I am definitely advised of its duty. I will say that if the figures you have given me are correct, this dumping duty, would, in my opinion, be very satisfactory to the fruit growers of the Niagara Peninsula.'"

Earl Marshall: "Our company, the

Niagara Packers, is very well pleased. The duty is sufficiently high to give a good measure of protection especially in the case of peaches and pears. As many as 24 cars of California peaches came into Toronto last week as well as a large quantity of American peaches which are being sold at and below cost of production. Our crop is just coming on and the duty will materially assist in keeping the price at a level which will ensure a reasonable return to growers."

Harold Woodruff: "This should prove a salvation for our peach crop. All our markets have been flooded with American peaches, which have been selling at a ridiculously low price. If it will keep American peaches out for the next month, the Canadian consumer will not suffer. He will get a good peach at a fair price. There are plenty of peaches in the Niagara district to supply all Canada."

A. W. Eichmeyer: "At present our quality peaches are not bringing the cost of production. Many carloads of American peaches and Bartlett pears are being sent to Canada at present, while receipts of Ontario fruits are very heavy. The Toronto market today had the largest quantity of peaches in years, and many carloads were American. I am very glad Ottawa, awakened up at last."

James Alphonso: "It will give our growers protection at a time when they need it most, when the crop is at its best. It has been impossible to get a price which covered cost of production on our peaches, pears and plums on account of the heavy imports of American fruit to the markets of Canada."

Stoney Creek Orchestra Delights Large Audience

Heard in Merit Program at Moore's Theatre on Sunday Evening—Concert Held Under Auspices Of Soft Ball League Which Enjoys A Most Successful Season Under The Presidency Of Henry Hillier.

Citizens of Grimsby and district had the privilege of listening to a musical program of splendid merit on Sunday evening when the Stoney Creek Orchestra, comprising twenty-seven musicians, appeared before a large and appreciative audience which filled Moore's Theatre to capacity. Their playing elicited many expressions of approval and in their rendition of a delightfully varied program afforded genuine enjoyment to those who had gathered. The event was held under the auspices of the Soft Ball League of Grimsby at whose invitation this deservedly popular orchestra came to this town and favored the community with a high class orchestral concert.

It was at first intended to have the concert on the Public Library grounds but owing to inclemency of the weather the program was given in the theatre.

Mr. David Allen occupied the chair with his usual acceptance and extended a cordial welcome to the orchestra and citizens. In its program the orchestra presented a variety of numbers, all of which found favor with the audience which accorded the orchestra a cordial and hearty reception.

The program included such stirring and popular marches as "Our Director," "The Stein Song" and "Big Ben" and the very modern composition "Parade of the Wooden Soldiers" as well as the ever popular summer "The Blue Danube," the brilliant American overture "Youth Triumphant" and a modern selection "The Moon is Low." Other appealing numbers played by the orchestra were Handel's celebrated "Largo" "Cathedral Echoes" and "In a Monastery Garden."

In the well known ballad "The Sunshining of Your Smile" Mr. Timms arranged a special chorus of three trumpets which were played by Messrs. Albert Reinke, Fraser Morris and Ted Hysert, with violin obbligato by Mr. Percy Dewar. This also proving an effective number.

Other numbers which contributed to the enjoyment of the occasion were vocal solos and duets by two talented singers, Miss Irma Reinke, soprano, and Miss Harriet Reinke, contralto, as well as an excellently rendered violin duet by Mr. Percy Dewar and Mr. Thomas Peake and a trombone solo by Mr. Jack Loughhead of Hamilton, accompanied by the orchestra, which revealed his high proficiency on this instrument.

The chairman during the intermission called upon Mr. Henry Hillier, president of the Soft Ball League, who took occasion on behalf of the organization to express sincere appreciation of the hearty support given the League by citizens in general as well as the splendid co-operation which revealed his high proficiency on this instrument.

BIRTHS

CROFT—at Grimsby, August 20th, to Mr. and Mrs. C. H. B. Croft, a son.

Option Expired on School Property

In Effect Until August 29th. Town Council Has Asked For Option On Alexander School Until Next Municipal Election.

On Monday the thirty day option which the Board of Education gave on the Alexander School property expired, the prospective purchaser failing to take up the option. The Board, of course, is free to dispose of it to any other party who desires to purchase the property and it is understood that there is a probability that it will be sold.

It will be recalled that the Grimsby town council at its last regular meeting laid over the petition of the Board of Education which applied for a permit to erect a gasoline station on the Alexander School property until the expiration of the option. The resolution passed by the council stated that if the option was not taken up by the town request an option on the property until the next municipal election when the people can vote as to the disposition. It was further stated in the resolution that if the school board will not grant the option that an immediate vote of the people be taken.

The Board of Education holds its next regular meeting Wednesday evening next when the request of the council will come up for consideration.

Crops Are Badly Affected by Drouth.

Discussing general conditions W. G. Marritt, agricultural representative, Wentworth, who tours all sections of the county regularly, stated that he never saw crops as bad.

"I know of one cattle feeder who purchased a lot of 60 and he is faced with a loss of \$2,000," said Mr. Marritt. "Feed prices are away down. I don't know the reason and I don't know of anyone who does. It appears that there is a downward trend on the market and all commodities are affected."

"I don't know what some of our dairymen will do this winter," added Mr. Marritt. "Pasture fields are brown and have been for some time. I know farmers who are feeding their winter supplies to hards at the present time. It means that they will have to buy every pound of feed during the winter months. It will be a losing game."

"There are no oranges or other crops in Wentworth," Mr. Marritt concluded.

Outs have turned out fairly well and have given the farmer the only encouragement of the season. Wheat, however, was fair, but the average here was considerably lighter this year because of recent heavy winter losses.

Along with the dairyman and grain grower, the fruit and vegetable producers have suffered. Tomatoes will be a light crop and serious loss from our salad and dry rot is reported. Peaches, pears and plums have not properly developed because of the lack of moisture.

Oliver Merritt Wins Silver Medal In Pianoforte Playing

Oliver Merritt, the talented young son of Mr. and Mrs. J. W. Merritt brought honor to his parents and to Grimsby when he successfully competed in the pianoforte competition held at the Canadian National Exhibition, being awarded the silver medal for the proficiency shown. The competition was for entrants under sixteen years of age.

About twenty-two competed in the morning in the competition, to determine those who should be in the finals four of whom were boys. Only six, however, played in the finals, held in the evening, and young Oliver was the only boy.

The judge spoke very highly of his work, there being but a difference of five marks between young Oliver and the winner of the gold medal, Miss Agnes Butler of Hamilton, who was the same young lady who received the silver medal at the Welsh Competition held on May 23rd when Oliver was successful in carrying off the gold medal.

His friends will congratulate him on his success, and will follow his musical career with interest. The young lad is but fourteen years of age and the future holds much promise for him in the realm of music. His teacher is Mr. E. F. Lewis, A.T.C.M. of Hamilton.

Gets Two Years At Jail Farm

A sentence of two years less one day at the Grimsby Jail Farm was given James Ridd of Hamilton by Magistrate Campbell at Grimsby on Monday, he having pleaded guilty to several charges of breaking, entering and theft. By the conviction a number of thefts which have taken place in this town during the past few weeks have been cleared up. Ridd was arrested by Provincial Constable Embleton and Chief Demill at Hamilton, on Sunday, August 18th. It is understood that he will also stand trial at Hamilton as he is wanted by the police of that city. It was shown in court that he had served previous terms for theft.

Roads Are Being Much Improved

Cinders Applied To Streets On Which Sewers Were Laid—Fine Stone Put on Depot St.—New Sidewalk Laid.

The chairman of the Board of Works, Councillor A. G. Boulter, has had a gang of men busily engaged in placing cinders on the various streets on which sewers have been laid. Robinson, Elizabeth and Adelaide streets have been completed while Oak and Elm streets will be completed at an early date.

On Mountain street the road on either side of the pavement will be levelled so as to permit the water to drain off properly.

On Depot street on which there is a heavy traffic a coating of fine stone is being used, and which will much improve the road.

The cinders put down provide an excellent foundation, the improvement being much appreciated by motorists and others who have occasion to use these streets.

Men have also just completed the laying of the sidewalk of new sidewalk on west side of St. Andrew's avenue. The intention is to repair all sidewalks while the weather is favorable.

Commences Pastorate At Baptist Church On Sunday Next

Next Sunday, August 30th, Rev. Harvey Merritt will begin his pastorate at the local Baptist church. Mr. Merritt comes from near Ottawa but is not a stranger to this district as he has been brought up near Grimsby. He has held several successful pastorates in Ontario and friends are looking forward to his coming to this community. Mr. Merritt is a graduate of McMaster University and represents the graduates of his Alma Mater on the Senate of the University.

Arranging Three Months' Course

Will Likely Be Held In Smithville or Jordan Vineland District Beginning In December.

Information has just been received from the Agricultural Representative, R. F. Neff, to the effect that the three months' course for Lincoln County, for Dec. 1930, Jan. and Feb. 1931, will likely be held either at Smithville or in Jordan Vineland district.

These courses will be held in the community where there is the greatest interest shown, and where there are the largest number of young people who agree to attend and make the classes of the greatest benefit to all concerned.

The local community is required to provide free, comfortable halls, well heated and lighted for the two classes, one for the young men and the other for the young women, and this may also be a determining factor in where the courses may be held. The class will run from 9 a.m. to 4 p.m. The dates of the course will likely be Nov. 29th to Dec. 19th, 1930, and Jan. 6th to Feb. 27th, 1931. There are no text books to be purchased, and courses will be made most interesting, and very practical.

A number of canvassers for each district will be sent out, to secure the names of all who may attend the courses.

The Junior Farmers who are canvassing for the prospective students for the Smithville course are, Hugh Lounsbury, Maxwell Taylor, Rolfe Topp and Arnold Mosner.

The Smithville Women's Institute, of which Mrs. Laura Kettle is President, and Miss Emma Neeracher, Secretary, will have for its purpose the names of prospective young ladies who attended the coaching class in Home Economics, held recently in Smithville, will assist in the canvassing.

In the Junior Vineland District the following will canvass: the students, Samuel P. Fry, Daniel Hays and Donald Roland, for the young ladies, Delia Culp, Mrs. Hillard High, Mrs. R. C. Houston and Miss Mary Thompson, president and secretary respectively of the Union Women's Institute will co-operate.

Interested parties are asked to get in touch with any of the above mentioned during the next few days. Those wishing further information should get in touch with R. F. Neff, Agricultural Representative, St. Catharines.

AMERICAN FINED

George C. Toney, of Jamestown, N.Y., was assessed the sum of \$25 and costs in police court at Grimsby on Tuesday for failing to return to the scene of an accident. A charge of reckless driving was dismissed. The charge was laid by Provincial Constable Embleton.

It is understood that he will also stand trial at Hamilton as he is wanted by the police of that city. It was shown in court that he had served previous terms for theft.

Many Changes at Grimsby Beach

Has Very Interesting History—To Build Community Hall—Beach Improved This Year—Handsome Amount Raised by Cottagers.

To start a story that has its beginning over three score years and ten ago and follow it through in sequence is not very difficult sometimes, but the story of Grimsby Beach is full of constant change and the unfolding of its glorious past is therefore of very great interest. Most summer resorts are just summer resorts, but the past history of Grimsby beach is so enduring that it never can be obliterated. Children and grandchildren come back year after year for there is an atmosphere of sadness about it, having been the first ground.

What really started the early camp meeting idea in Grimsby beach was when Rev. Alexander Langford, father of Mrs. A. W. Rowell, then this beauty spot about the year 1860 and built a small cottage where he could entertain his friends. Rev. Mr. Kettle, an old friend, conceived the happy thought of holding camp meetings in the park, and among those who attended the first meeting was Mr. Annie O. Rutherford, of Toronto, who has been a lifelong camper at the beach.

A committee composed of Revs. Samuel Rose, M. Pavrett, John Wakefield and John Shaw, with laymen J. B. Boushagh, David Houser and Jacob Bremer, met at the home of Mr. Powell and selected the ground for future camp meetings. They appeared very suitable as there was good water, pasture for the horses, a symmetrical neighborhood and plenty of pine roots and wood for lights. This with the exceeding beauty of the trees decided them on choosing Grimsby Park.

This original company went into liquidation and it was taken over by Mr. Boushagh who sold twelve acres to the Camp Ground Co. but he made the stipulation that any time services were not held the land could be reclaimed. He also stated that a condition of ownership was that no intoxicating liquor could be brought on to the grounds or sold. Mr. Boushagh's cottage is the cottage in which Mr. Burkholder now resides.

In 1875 the company was incorporated and Mr. Noah Phelps was made the first president. His cottage was the first to be built in the circle and is numbered one.

People lived in small and very often log houses in the early days and did not have many churches. They did, however, have nature's tabernacle, the trees, the overhanging rocks and about this time a new spiritual fervor aroused the people and they saw the mystic spiritual advantage of worshipping together in the open. A plan was conceived in the carrying out of which a large circle was made in the woods. Wooden tents were constructed around the edge for shelter and four huge light beacons or towers were placed at intervals. These consisted of four posts or towers about six feet in height on top of which was laid a plank platform and over it was put about a foot of earth. On these towers cordwood logs and stumps of pine heavy with pitch, were laid and when evening fell and the bush of twilight deepened into darkness the fires were lighted and the people would gather, filling the rude benches around the perit. The mothers sat in their doorways guarding the children who were sleeping behind the rude doors, but at the same time they could hear all that took place. This was a case where provision was made so that all could attend and enjoy the proceedings.

Later cottages were built where these tents formerly stood, this explains why they appear so close together in the circle of today. The effect must have been truly entrancing with the fiftful flares from the lights of fires flickering and dancing under the trees. To what flights of eloquence could not the chosen speakers mount in such an environment. It is said that at times these ministers would forget time and often keep on with their worship until the fires died down because they forgot to replenish them and when darkness would creep in the meeting would have to close.

As time passed and people kept coming again to this favored spot, Noah Phelps conceived the idea of making Grimsby Park a place similar to the Chautauque in New York state. The plan was carried out. A high enclosure was made all around the grounds and a gateway erected. A very large circular building was built in the form of a huge beehive the roof of which stretched out over the former outdoor auditorium. Ten high plaques were put together, one on top of the other and it is said that 21 tons of nails were used together with screws and bolts. When it was built

On Friday evening a special meeting of the West Lincoln Branch Canadian Legion was held at which particular attention was devoted to the question of unemployment among the veterans. Plans were discussed as to how to raise sufficient funds to meet the calls which will be made during

Howard Biggar Instantly Killed By Lightning

Twenty Year Old Grimsby Youth Struck Down While Working In Fruit Orchard—His Uncle, Floyd Johnson, Severely Shocked Was Prominent Member Of Soft Ball League And Popular Young Man—Funeral Largely Attended.

Howard Franklin Biggar, 20 year old son of the late Bell Johnson and the late George Biggar of Linden, Ontario, lost his life with tragic suddenness during a thunder storm in Grimsby about 5:30 o'clock on Monday afternoon when he was struck by a bolt of lightning in the fruit orchard of his grandparents, Mr. and Mrs. R. E. Johnson, Main street west.

The young man with his uncle, Floyd Johnson was working in the fruit orchard when he was struck by a bolt of lightning in the fruit orchard of his grandparents, Mr. and Mrs. R. E. Johnson, Main street west.

Working opposite to him about three feet away was his uncle, Mr. Floyd Johnson and he too was struck by the force of the bolt and was killed. He was able to be about however, the next day although much shaken by the severe shock he experienced, indications of the effect of the lightning being plainly visible under his right arm and on his left leg as well as across the front of his head. It was miraculous that he escaped with as he apparently also received the full force of the lightning as well.

His brother, Gordon with Jimmie Johnson, the young son of Mr. Francis Johnson, were in the barn about forty feet away sorting peaches and they too suffered from shock. The smell of sulphur from the lightning was very pronounced. The grandfather of the young man killed had left for the home but a few minutes before the tragic happening.

A neighbor, William Schwab, who was standing at the door of his garage at the time hastened to render aid to the stricken men. Medical aid was also summoned. Dr. Gentry being soon on the scene but although every effort was made at resuscitation, it was unavailing. Medical aid was given Floyd Johnson who was badly shocked by the lightning.

Dr. Gordon Sinclair, the coroner,

viewed the remains but stated that no inquest would be held. The young man was born in Fruitland. Both his parents passed away some years ago and he had been making his home with his grandparents, Mr. and Mrs. R. E. Johnson. Up to last year he attended the Grimsby high school where he was a popular student. He was also a highly valued member of the Softball League this year. He pitched for the West End team, being a most competent player.

The funeral was held this Wednesday afternoon at 2:30 o'clock from the home of his grandparents, Mr. and Mrs. R. E. Johnson, and was largely attended by citizens, including members of the various organizations with which the young man had been identified. Rev. Dr. Cline, of the Baptist Church which deceased attended, officiated, conducting an impressive service after which the funeral cortege proceeded to Fruitland where interment took place.

The pall bearers were, Clifford Schwab, Frank York, Charles Grainger, Richard Hull, Louis Gane and Gerald Nelson.

His immediate relatives who survive are his grandparents, Mr. and Mrs. R. E. Johnson, his uncle, Mrs. Chas. Cattermole, Mrs. J. Bull, Mrs. N. Reid, Mrs. Arthur Roach, Mrs. H. Hutter, his uncles, Messrs. Frank, Gordon and Floyd Johnson, W. and H. Biggar, and his step-mother, Mrs. Annie Biggar, of Linden.

Beautiful floral offerings were sent by the following softball teams: Officers and umpires, West End champions, Model Dairy, Trinity United Fruitland, Metal Craft, St. Andrews, and the Girls Softball team. Others from whom sprays and wreaths were received were: Mrs. O. Davis and Mr. and Mrs. Stanley Dymont, Detroit; Mrs. L. Larson, Mr. and Mrs. W. Biggar; Mr. R. Johnson and family, Mr. C. Clattenburgh and family, Mrs. N. Reid, Mrs. A. Roach, Mrs. B. Hutter, Mr. R. E. Johnson and family, and others from Lynden and Hamilton.

Dr. Gordon Sinclair, the coroner,

All Triple Credits In Contest End Saturday

Two Closing Weeks Will See Hot Fight For Supremacy In Subscription Campaign—Now Comes Last Chance To Win Big Credits

It is now a matter of hours. Just a few short hours to win or lose a prize worth \$684. That's what the classy Ford Tudor is worth.

Mrs. William Shafer 4,273,000 credits
Miss May Crittenden 4,262,000 credits
Mr. V. E. Cullingford 4,351,000 credits
Mr. Eric Simpson 1,349,000 credits

ONLY 3 MORE DAYS
Then down go the credits in The Independent Help Yourself Club.

Second period—Decreased credits from Monday, Sept. 1 to Wed. Sept. 10.
1 year, \$2.00 1,500
2 years, \$3.00 6,000
3 years, \$4.00 18,000
4 years, \$5.00 20,000
5 years, \$10.00 40,000

Nine p.m. Saturday, Aug. 30. The banner week! The banner week! Candidates intent upon winning must concentrate their efforts. Subscription credits are greater now than they ever will be again. Positively no increase in credit schedule.

Long term subscriptions come big and a few such orders now—when they count most—might be the deciding factor in the race.

Those who hold back subscriptions now only lose, for after this period credits drop.

As the clock ticks away the golden hours between now and Saturday night those who avail themselves of the opportunities this period affords and utilize every moment of the remaining time to the best advantage will, without doubt, be numbered among those who qualify in the final for the major awards.

Who Will Win
That is the question no man can answer as this is written.

So closely arrayed are the various club members with honors so evenly divided, up to the present moment, that it depends almost entirely upon what is accomplished before Saturday evening, Aug. 30, as to who the ultimate winner will be.

No one has a walk away for that Ford Tudor Sedan; neither is anyone hopelessly beaten. Just a little more determination, just a few long-term subscriptions secured by any one of the various contenders, would change soon as possible.

But that is only one of a dozen reasons why they must repeat twice each week. We want to know who is working and what they are doing, and we must get the subscriptions on our list and out to the subscriber as soon as possible.

Unemployed in Europe 5,949,287 Germany With 2,757,000 Heads List

London, Aug. 9. — Unemployment reached a new high record in the Old World with the announcement recently by Germany that her total number of persons out of work was 2,757,000. As Great Britain's unemployed officially passed the 2,000,000 mark last month, it is estimated that in six European countries there are to-day at least 5,949,287 persons listed as out of work.

Italy, with 322,387 officially reported jobless, 114,094 of them women; France, with upward of 100,000 on strike and 20,000 out of work immediately; and Hungary, with 400,000, mostly agriculturists, also brought the total to 5,949,287 officially out of work, while Austria added 450,000 to the roll. The London Daily Herald on March 3 reported that the total of unemployed in the entire world was 16,000,000. Great Britain's army of unemployed has been growing since last autumn and went past the 2,000,000 mark on July 28. As registered in labor exchanges throughout the country, British unemployment, it then was disclosed in official reports, had increased 657,000 in a single year.

In Britain the industries which have suffered most are textiles, with nearly 600,000 idle; transport, with 412,000; building trades, 170,000; coal mining, 355,000, and engineering in its various branches, 412,000.

Germany has experienced an increase of 1,000,000 unemployed in the last year, of whom 51,000 lost their jobs in the last fortnight. In Berlin alone there are 325,935 jobless, as shown in July reports, among whom are 70,000 metal workers; 31,000 building trades workers; 32,000 clerical workers and 5,000 technicians of various lines. Added to these is the usual large representation of unskilled laborers.

Italy's outlook took a turn for the better recently when the government made known that extensive plans had been made for employment in State work of many thousands of persons. The government held the attitude that the gains in unemployment must be checked before winter and to that end laid down an extensive road-building program to begin Sept. 1 and 15, employing 37,000 men and costing up-wards of \$10,000,000.

R-100 May Repeat Visit to Canada

Great Airship Now Swings at Mooring After 57-hour Crossing

Cardington, England.—The R-100, largest airship in the world, lay in her home berth (Sunday, Aug. 17th), after successfully completing a 57-hour, crossing of the Atlantic ocean from Canada.

The airship arrived over Cardington airport at 10:40 a.m. Saturday (14th a.m. E.S.T.), and was safely moved on shore and 20 minutes later.

Wing Commander R. B. Colmore, Major G. H. Scott and others on the trip believe the success of the initial transatlantic flight is a sure augur for a regular airline service between Canada and Great Britain. They envisage a bi-weekly service of airships de luxe, each carrying passengers and from five to ten tons of mail, under co-operation with the Canadian and British Governments, with private capital.

Meanwhile, they believe the R-100 should be kept in commission on some commercial basis, being sent back to Canada for further experimental investigation, and have free out transatlantic flights carrying passengers and mail instead of lying idle at Cardington.

Sir Denison Burner, designer of the ship, and also a passenger, already has advanced a program for the ship to go back and forth between Canada and England, the British and Canadian Government to co-operate with private capital for the development of a regular service.

The outward crossing was made without incident, except for a tear in one of the fins. After 13 days in Canada the R-100 started for home and made excellent time until she reached the mid-Atlantic.

There she encountered heavy wind and rain which slowed the speed at one time to 15 miles an hour, but later the weather cleared up and the big ship, with "all wind beating her along, sped on the ocean at 30 miles an hour. The delay was enough to spoil the hope of a record crossing, but her time was considered good.

Crews Witness Landing

The dirigible left Montreal at 8:30 o'clock last Wednesday night and completed the 3,337-mile crossing in 87 hours 12 minutes of flying time, as shown by the log.

Great crowds witnessed the landing, giving a warm welcome to the members of the crew and the passengers. Then, after sending a contingent of fresh Canadian flowers to the Queen and a box of Canadian apples to the Prince of Wales, the crew and men went to their homes for rest, while the lessons of the flight were studied by Britain's air experts.

Comfort, Speed, Safety

R. W. Grange of Ottawa, Ont., who was correspondent for the Associated Press and the Reuters Agency of London on the return journey, spoke enthusiastically of the comfort, speed and safety of the ship.

It is believed that better co-operative measures between Great Britain and Canada for mapping Atlantic weather will result from the flight. Much valuable information regarding air currents was obtained and the knowledge gained will be applied to the charting of future flights.

Observers pointed out that had the meteorological data for Atlantic weather forecasts been complete and prompt, the navigating officers might have avoided the storm which delayed their progress.

Not in True Colors

The two city business men were talking about their respective employments.

"Yes," said one, "old Smithson has grown gray-haired in my service." The other smiled contemptuously. "That's nothing," he said. "I've got a girl with me who has grown gray-haired, and reshined in my service."

Naples Again Swept By Violent Storm

Seventy Injured When Terrific Gale Levels Market in Early Morning

Naples.—Almost three weeks after the earthquake which laid waste wide areas of Southern Italy, Naples again was the scene of a disaster on August 10th which left death and ruin in its wake. A storm of unprecedented violence burst over the city in the early morning, and did a great amount of damage, especially to the agricultural market, Poggioreale, which was completely razed. According to official figures, four persons were killed and more than seventy injured, of whom twenty are seriously hurt.

When the Poggioreale market was just beginning to be crowded with peasants coming in from the country to sell their products, the storm broke, sweeping the city from one end to the other, uprooting houses, knocking down chimneys, uprooting trees and laying low all overhead wires.

Houses shook so much under the violence of the storm that many persons jumped out of their beds, believing another earthquake was upon them, rushed into the streets, and called upon the saints to save them. It was some time before confidence was restored and the people returned to their homes and shelter from the driving rain.

Over the Poggioreale market the storm assumed the character of a veritable tornado. It swept down howling upon the market, tearing at all obstacles. Peasants there with their carts, horses, mules and even rushed wildly for shelter, while the boats stamped among the people and injured many. Soon the air was filled with flying pieces of wood, brick, stones, baskets, fruit and other objects, which rained down upon the fleeing people.

Prince of Wales Now Miniature Golf Fan

His Royal Highness Plays Game With Belgian Queen

Brussels.—The Prince of Wales has become a miniature golf course fan during his visit here.

The first evening after dinner at Laeken Castle, he took Queen Elizabeth to the miniature links of the royal palace and played until dusk. The Prince's fondness for dancing also was evident recently at the British embassy where Lady Granville, using high strategy, sent the band home at 2:30 a.m. so that the Prince could get some rest for a busy program.

Camp as Part of School Urged Upon Educators

The inclusion of camp life in the scheme of public education was advocated recently by Dr. Goodwin Watson, professor of education in Teachers College, Columbia University, in an address before 1,000 school administrators and educators.

"My suggestion is," said Dr. Watson, "why not include in public education several months each year, for winter and spring, as well as summer, the free creative activities of an informal and democratically organized camp? There seems to be as much good reason for a board of education to acquire property for, and to run, a good public camp for boys, girls and adults, as there is for running a city school building."

"Many youngsters now spend more waking hours in camp than they do in school. There is good evidence that health gains are made during a summer in camp that are not attained by a year of schooling, and is not health one of our objectives in education? There is clear evidence that happiness depends more upon the kind of atmosphere in the woods, and acceptability of other people as it develops in camp life, than upon all the literature, art and music of the formal school."

Has to be seen to be believed. This is town of Sprotter, Alta., after a midsummer snow and hail storm dreaded by farmers.

Le Bourget Airport Shows Big Turnover

Goods imported and exported at Le Bourget Airport, Paris, show a steady increase during the last nine years, according to reports to the Department of Commerce. During 1927 the number of packages imported was 30,294, while the number exported was 31,009. Figures for packages imported and exported for the years 1928 and 1929, respectively, were: Imported, 56,050 and 73,333, and exported, 115,632 and 128,681. The increase in value of shipments has been more or less parallel with the increase in amount.

From England, France receives at Le Bourget shipments consisting of dogs, gold and platinum, cotton and woolen cloth, mens wearing apparel, corsets, rackets, etc.; from Belgium, lace, embroideries, lingerie and furs, and from the Netherlands, fresh cut flowers, paintings, tungsten filament and strings for musical instruments and trapezes. Germany sends, among other things, electric apparatus, surgical dressings, scientific apparatus of measure and control, imitation jewelry, hides and Morocco leather goods. Austria and Czechoslovakia also send Morocco leather goods, skins, imitation jewelry and small glassware.

Sir Harry Lauder Greets Americans

Glasgow.—Sir Harry Lauder was the center of a gay welcoming party which greeted 1,000 American Scouts who arrived recently on the steamship Cabotia and Transylvania.

The tourists, members of the Order of Scottish Clans, hailed Sir Harry enthusiastically, clamoring for a speech and song. Sir Harry said, in a brief address: "I hope your stay in Scotland will be most enjoyable and that you will go home impressed and invigorated by the visit."

Sewing Machines Given To Unemployed Women

Mexico City.—A group of women, unable to find employment, took their trouble to General Manuel Porez Trevino, Mexican Secretary of Agriculture. He knew of no suitable jobs to offer them but, gave them ten sewing machines and advised them to start a co-operative sewing.

The women then equipped will apply to clothing manufacturers for piece work which they may do at their homes.

Observatory Claims the Stars Rotate Faster Than Sun or Earth

Chicago.—The stars are rotating with an average velocity of fifty kilometers a second, compared to the sun's rate of two kilometers at its equator and the comparatively poky rotation of the earth at about 600 meters a second at the equator. These figures of the rate of rotation of the stars were arrived at by C. T. Elvey, of the Yerkes Observatory of the University of Chicago.

Because the stars are so far away from the earth, it is impossible to get an image larger than a dot of light, even with the biggest telescope. The rate of rotation cannot be determined, therefore, by the same means used to measure the rotation of the sun, which is large enough and sufficiently close to the earth to give a large image in a telescope.

Mr. Elvey has used the absorption line of the spectrum of isolated magnesium given off by the stars to measure their rate of rotation measuring

the spectrum line of fifty-nine different stars to get his average of fifty kilometers a second.

Because the star is rotating half of it is approaching the earth and half receding so that the light waves change in length just as the pitch of a bell changes as a person hears it approach or travels away. This change of wave in the light waves produces a widening of the spectrum band, the amount of widening indicating the speed of rotation.

There is a considerable element of error in the figures, it is admitted, because a true rate of rotation can be obtained only when the rotation is at right angles to the line of sight from the earth. The more the axis of the star is inclined away from a right angle to the earth, the less reliable the earth, the less reliable the error, and it is impossible to ascertain the angle of any star. The average figure for a large group of stars, however, gives a fairly accurate result.

"Flying Amy" Gets \$50,000 For Flight

London.—Amy Johnson, Britain's London-to-Australia flying heroine, made a triumphal progress in sunshine and rain squalls through the streets of London recently.

Britain, anxious to see "Flying Amy," lined the streets as they do when royalty appears. The aviator, whose personality charmed a dozen countries on her recent record air journey, went to a hotel where Britain's conquering youth of 1930, most of them girl celebrities, attended a "coming luncheon" and saw her receive a cheque for \$50,000 from the London Daily Mail which, maintaining the traditions of Lord Northcliffe for fostering aviation, rewarded her for her success on the Australian hop.

Canada Ranks Fourth In Use of Telephone

Toronto.—Latest statistics issued by the Bell Telephone Company show Canada has the fourth largest number of telephones among the countries of the world. There are 1,334,534 telephones in use throughout the Dominion, or 12.7 for each 100 of the population.

"The fundamental obstacle to peace is our hereditary centrifugal psychology, perhaps dormant but always explosive,"—Sir Henry Worth Thornton.

Birthday Present

President Hoover being presented with buffalo horn at White House for his fifty-sixth birthday by delegation of Boy Scouts from district of Columbia, representing Boy Scouts of America.

King's Physician Visiting Canada

Lord Dawson of Penn Praised Medical Schools of Dominion

Montreal.—"The medical schools of Montreal and Toronto are amongst the best in the Empire," said Lord Dawson of Penn, physician in ordinary to His Majesty King George, who arrived here recently. He came from England on the Empress of Australia for a visit to Canada. Lord Dawson, who is accompanied by Lady Dawson and their youngest daughter, Hon. Rosemary Dawson, will also visit Ottawa, Kingston and Toronto before going to Winnipeg to attend the British Medical Association convention.

"His Majesty has made a complete recovery and is in excellent health," Lord Dawson replied to a question. Lord Dawson, with the galaxy of medical and surgical skill he gathered round him during the critical period of His Majesty's illness over a year ago, was undoubtedly responsible for saving the King's life.

Lord Dawson is here for a holiday, in addition to the British Medical Association meetings. He said he was always glad of an opportunity to come to Canada. "I like to visit your big cities, Toronto, Montreal, Ottawa and Winnipeg, and to profit by the large amount there is to learn here. And I mean not only general knowledge but also what is to be learned with regard to the profession of medicine. Your medical schools of Montreal and Toronto are amongst the best in the Empire."

Relaxation Good Medicine

"Relaxation is the essence of a holiday and in planning to go out to the west after the British Medical Association meetings are finished and leave myself in the Rockies, I am just applying good medicine to myself."

Asked if he would visit the British Columbia coast the King's physician said that to his regret he could not do so this visit. The far west, he said, was so important as to need a visit for that special purpose. He thought Canada too vast a country to be looked at hurriedly and of this, his first visit to the west, he said, "the essence of travel is that one must not move about so much that one hasn't time to see things."

Artery Test Only Sure Death Test

There is only one sure test for telling whether or not a person is really dead, says Sir Bernard Spill, medical expert of Scotland Yard. This famous authority on criminological science in a recent address before the British Undertakers' Association stated that the mere stoppage of the heart does not necessarily mean death. He pointed out that many individuals have been revived by medical or surgical aid after the heart had stopped beating several minutes.

The one sure test, Sir Bernard stated, is to open up an artery and see if it bleeds as all living arteries should. He pointed out, however, that this method seldom was practiced, except at the specific request of those who feared being buried alive. Another unreliable sign of death, said Sir Bernard, is the absence of breathing. Many persons have been resuscitated long after breathing stopped.

Sir Bernard agrees with other scientists that, although there is little probability of any one's being buried alive nowadays, the only perfect precaution against it is to have an artery opened by a medical man.

Dirty Pockets Are Germ-Laden Nests

Any doctor will tell you that you habitually carry about with you an army of germs on your clothes. Your pockets often present a happy hunting-ground for disease-carrying germs. You can verify this statement by emptying a single pocket. When you turn it inside out, what do you find? Little clouds of fine dust apart from the folds and a kind of whitened line the seams. Were a bacteriologist to analyze these he could classify at least fifteen varieties of germs.

When you use your handkerchief, you carry these germs from pocket to mouth, nose, and throat. That white fluff in your pocket may be comparatively harmless when dry, but let it become damp through the heat of your body or a shower of rain and it provides an ideal breeding ground for virulent germs.

Do you realize the constituents of that fine powdery dust in your pockets? Some of it is copper, formed probably by minuscule rubbing together. Now copper dust contains variegated, which you know to be a deadly poison. A touch of this dust on your lips from your handkerchief might have serious results. Nicotine dust, another potent poison, is almost certain to be found in your pocket, and phosphorus from the heads of matches.

Then your pockets clean. Give

Contented Cow Used For Dinner

A contented cow met a hungry

hunger in 1931. The cow belonged to French peasants, living near Marigny who had fled from danger in June, 1900, and left the beast behind.

The horses were American Marigons, we are told by Capt. John W. Thompson in "Six Hapenets" (Scrivener's). The Marigons had had no ration that day, nor had they any prospects. So, the writer tells us, "all hands took thought and designated a 'meat' corporal an executioner. He claimed to have been a butcher." Reading on of what happened to delay the Marigons in preparing their meal:

He was leading the cow docently away from the road, when a long gray car loomed up, halted with the touch of a crank that Headquarters chauffeurs always affect, and disgorged a very angry colonel. The colonel's eye was cold upon the interested group around the cow. They stood now to attention, the cow alone remaining tranquil.

"Lieutenant, what are you doing there?"

"Sir, you see, the men haven't had anything to eat, and I thought, sir, we found this cow wandering about."

"I see, sir, I see! You were going to kill this cow, the property of some worthy French family. You will hear in mind, Lieutenant, that we are in France to protect the lives and property of our allies from the Germans. Release that animal at once!"

The Marigons set down in the wheat and observed the cow.

"Property of our gallant allies, you!"

"Old man's in an awful humor."

The lieutenant snatched a straw reflectively. His sergeant selected himself with tobacco. The cow ruminated, quite content. He had nibbled himself at will for three delightful days, since her people, in a farm over toward Torcy, where, at the minute, the Beche was killing a battalion of French territorials, had incomprehensibly turned her out and vanished.

"I am a quartermaster sergeant once," said the platoon sergeant dreamily. "I remember just what the cow's beef was. There'd be fine sirloin on that cow-critic, now. . . . Mr. Ashby."

"If we was to take that cow over to the bar in that brush—the English to be out here in the open, anyway—might draw fire. That's liable to hit anything."

"Sergeant, you heard what the colonel said. But if you think she'd be safer, I'll suggest volunteer a. And by the way, I want a piece of tenderloin."

The cow was duly secured in the wood, now risking their lives thereby. The Beche snatched methodically for two hours, and the Marigons were released to a fearful state of nervous, saying to themselves:

"Is that dam' bluffer gonna live forever?"

This was June 8; the battalion near Marigny, on the left of the Marigons Brigade, had a feeling that they were going in to-morrow. The men thought lazily on events, and lounged in the wheat, and watched that clump of trees. At last an agonized fellow. Well, she's stuck on! Thought the muck dog in. Let's go get it."

Adjustment Made In Train Service

Brookville.—The application of the Canada National Railways for an adjustment in the train service between Brookville and Westport was heard by Calvin Lawrence and T. C. Morris of the Board of Railway Commissioners here recently. When judgment was given granting the application of the railway, which proposes to discontinue the motor train service, two trips each way daily, except Sunday, and substitute therefor a steam train making one trip each way daily, except Sunday, to become effective with the change of time in September. Representatives of the railway showed interest in such an extension with the railway's business that in this branch the motor train for the last three months of last year had operated at a cost of approximately 50 cents a mile, while the revenue was from 10 cents to 12 cents per mile.

Regina Flier Creates New Altitude Record

Regina.—Creating what is believed to be a record for Western Canada, and breaking the Regina altitude flying record, R. B. Koffer, of the Regina Flying Club, climbed to 14,555 feet over the city recently. As Regina is about 1,900 feet above sea level, Pilot Koffer reached the height of more than 12,655 feet. Mr. Koffer carried a thermometer with him on his flight. Pressing point was just about 15,000 feet. At 14,555 feet, the temperature was 30 degrees Fahrenheit or 15 degrees of frost. It took him seventy minutes to make the upward climb, but only ten minutes to descend.

And Artistic Effort

Misses: "I can see a spider web in the corner, Ethel! You bet do you attribute that?"

Maid: "To a spider, ma'am."

Effendi, a title of respect in Oriental countries equivalent to the English "sir," is given to members of the learned professions and to governmental officials who have no higher titles.

Local Items of Interest

The Grimsby High and Public schools will re-open on Tuesday, September 2nd.

The Grimsby Board of Education will hold their regular monthly meeting on Wednesday evening next.

On Saturday afternoon the fire brigade was called to extinguish a grass fire on Fairview Avenue.

Mrs. Vernon Tuck has returned from a vacation spent in the Kawartha Lakes district.

Mrs. Doran, Miss F. Doran, Miss Elsie Drury, Mrs. David Allen, Miss Ruth Walker and Miss Margaret Allen are holiday visitors at Bal, Ont.

On Monday evening the Grimsby Girls' Softball team defeated the Oshawa girls' team at Grimsby by a score of 12 to 9.

Mrs. C. F. Mahony is visiting in Sarnia and Detroit and Miss Ida Mahony is spending her vacation with Mr. and Mrs. Anderson, at Point Edward.

The soloists in Trinity United Church on Sunday were Mrs. W. B. Bain of Brandon, Man. and Miss Ambrosine Dyke, of Toronto, both of whom sang with much acceptance.

On Thursday evening the Grimsby Girls' softball team defeated the Oshawa girls' team of Cheltenham by a score of 12-9. Both teams played good ball.

The town of Grimsby which has been on daylight saving time since June will revert to standard time at midnight, on Monday, September 1st.

On Monday about noon the fire department was called to Robinson street north where a fire in a Ford car was extinguished with hand chemicals.

Mr. A. Curtis Seale will conduct the morning service in Trinity United Church on Sunday next, and Mr. G. Blair, the evening service. Morning soloist, Mrs. W. A. Roland of Hamiltonville. Evening soloist, Miss Marjorie O'Neil of Grimsby.

The household effects of Mr. R. B. Hyslop, Elizabeth Street, were sold by public auction on Saturday afternoon, a large number attending the sale which was conducted by Goodnow Pettigrew, auctioneer, of Smithville. The property had previously been disposed of.

On Monday, Rev. P. E. Wilkins together with Dr. Clark, chairman, and W. F. Randall, secretary of the Board of Education and the town solicitor, G. B. McConachie were in Toronto to confer with the Department of Education regarding high school matters.

Citizens of Grimsby and district as well as a wide circle throughout the province will be pleased to learn that Maj. Rev. Gore M. Barrow, principal of Lake Lodge school, is convalescent after his recent serious illness and will resume his duties at the school when it re-opens on September 10th.

Warden Fred Oakes of North Grimsby and the chairman of the Agricultural committee of the county have been appointed by the county council to attend the Canadian National Exhibition and secure information with regard to exhibits being made by other counties as it is planned to put on a complete exhibit next year to advertise this county.

A modern gasoline and oil station with the latest and most complete facilities for serving the public has opened by Mr. Fred Armstrong on the property formerly occupied by Mayor Lewson, Main Street. He handles the well known Shell gasoline and oils. Mr. Armstrong is equipped to give the public efficient and prompt service at reasonable cost.

The old VanDyke shop at the rear of the Main Street stores which was built eighty years ago by the late George Van Dyke, was torn down last week. It was removed by order of the Deputy Fire Marshal. The shop, it is stated, was for many years the only carriage and blacksmith shop between Hamilton and Niagara Falls.

On Saturday afternoon Hamilton motorist, Jas. T. Hennick, reported to Chief Dennis that a Gr. reported Angus Smith, son of W. Smith boy, Smith Main Street West, had been struck by his motor car near the boy's home, suffering scalp lacerations. The motorist after calling the fire department to the scene reported to the police that the boy was in the accident, would take care of the boy's injuries. Fortunately the boy was not seriously injured.

FULLER BRUSH Company wants man with car to check and report their business in Lincoln County, Grimsby, Beamsville and Smithville. Most counties with \$100 per hour. Hours unlimited. Write or apply 412 Terminal Building, Hamilton.

Local Firm Gets Valuable Agency

Millyard's Drug Store Secures Exclusive 5 Year Franchise for Sargon, the New Formula Which Has Recently Been Introduced in Canada.

Local citizens who have heard of the results which have been accomplished by Sargon, and are interested in the announcement that this new and scientific formula can now be obtained in this town.

Sargon was introduced in the United States in April 1928. Since that time it has become a nationally-known, nationally advertised product. Not in recent years, perhaps, has any other medicine of its kind obtained such widespread popularity, and were it not for the actual facts and figures given out by some of the leading drug firms of America, the success attained by this product would be hard to believe.

Sargon is now being introduced in Canada, and a new, modernly equipped plant has been established in Ontario to take care of the rapidly growing demand throughout the Dominion.

In awarding the local agency, the manufacturers of Sargon have carried out their established policy of confining the sale to one thoroughly responsible and centrally located drug firm in each city, and wherever introduced the Sargon store will be found to be one of the leading and most representative. Such firms are always anxious and willing to co-operate with the manufacturers of meritorious products, especially internationally known products of proven merit.

Sargon was recently introduced in Toronto, Hamilton, London and other cities in Ontario, and judging from the large initial sales and the repeat business it has enjoyed, it now seems a foregone conclusion that the success attained by Sargon in the United States will be duplicated in Canada.

In the leading cities of the United States some of the most prominent men of the country have been among the hundreds who have come forward to tell what Sargon has done for them, and many thousands have used it with the most gratifying results.

Human nature is the same the world over, and when suffering men and women find a medicine that helps them, they want to tell their friends about it, and in this way Sargon is rapidly becoming known throughout the entire American continent.

The exclusive agency for Sargon and Sargon Soft Mass Pills for this city and section has been awarded to Millyard's Drug Store. In anticipation of the extraordinary demand, this well known firm has just received a large shipment of this celebrated medicine.

County Picnic At Vineland

"If the people of Ontario will eat Ontario farm products there will be no unemployment," declared J. B. Fairbairn, Deputy Minister of Agriculture in the Ontario House, and chief speaker at the Lincoln County picnic held at Vineland Station on Thursday. He urged that the people of Ontario should ask for Ontario farm products and thereby assist in the prosperity of the country.

Premier G. Howard Ferguson, who was expected as the speaker of the day, was unable to attend, as was also Hon. George Henry, Minister of Public Highways.

S. J. Wilson, M.P.P. for Lincoln, was the chairman of the afternoon, and in his opening remarks declared that the county was to be congratulated in having J. B. Fairbairn as a speaker of Agriculture, a man whom he felt sure would be of material assistance to the farming and fruit growing industry and would get every possible assistance from the Vineland Experimental Station.

V. F. Palmer, Director of the Vineland Experimental Station, extended to the visitors an invitation to make a tour of the station. This tour followed the speaking, with Messrs. Dixon and Strong conducting a tour through the fruit section and Mr. Kolb through the vegetable section.

Mrs. Edwin Secord, President of the Lincoln County Women's Institute, in introducing Mrs. McDonald of Copetown, representing the Women's Institutes of Ontario, stated that the farm women were coming into their own and that the various labor saving devices, the automobile, and the women's institutes were contributing factors.

Social and Personal

Mr. and Mrs. H. S. Doud of Ot-
tawa and Dr. Doud of Fenwick were
Saturday visitors at the home of Mr.
and Mrs. James Steele.

C. H. and Mrs. Walker and Mrs. N.
Lynn spent a few days with friends at
Toronto, Ont.

Mrs. Harvey Cook, Eleanor and
Betty of Watford made a short vis-
it at the home of Mr. and Mrs. Book
on Friday.

Miss May Walker, associate Di-
rector of Health Education under the
board of Education of Rochester, N.
Y., spent a day with Mr. and Mrs.
L. S. Beers, when passing through
Grimsby this week.

Miss Josephine Martindale of Ham-
ilton has been visiting Mr. and Mrs.
C. McInch.

Mr. and Mrs. Bert Shanta left
Thursday on a week's motor trip
through Eastern Ontario.

Mr. and Mrs. J. V. Martatt of Kan-
sas City, Missouri, visited with Mr.
and Mrs. G. L. Eaton.

Mr. and Mrs. Bert Greenwood and
family have returned home after hav-
ing a very enjoyable holiday at Port
Carling, Muskoka.

Messrs. R. M. Coward and Bert
Flett left on Monday on a motor trip
to Saskatchewan.

Dr. Schnick, chiropractor, at the
Village Inn, is in Chicago attending
the summer clinic at the National Col-
lege until Sept. 1st. His practice in
Grimsby will be continued early in
September.

Mr. and Mrs. R. B. Bristol and
family after a residence of eleven years
in Grimsby left this week to make
their home in Redwood, California,
about 27 miles from the city of San
Francisco. A son, Jac. E. A. Bristol,
whose home is now in California, ac-
companied them. Mr. Bristol has been
employed in Grimsby and will be ac-
companied on his return by his parents,
his brother Carl and his grandmother,
Mrs. Hunter. Mr. Bristol has been
line foreman with the Dominion
Power and Transmission Company
here and friends of the family will
extend them best wishes for their
future prosperity and well being in
their new place of residence.

Mr. Wm. Nichol and Mr. and Mrs.
J. H. Griffin of Winnipeg were vis-
itors at the home of the latter's par-
ents, Mr. and Mrs. B. Cook. Last
week they motored from Winnipeg
and Mr. Cook accompanied them to
Ottawa and other interesting
points. Mr. Griffin attended the
convention of the Mutual Life Insur-
ance Co. held at Toronto last week.
They left Grimsby on Sunday morn-
ing for Detroit and Chicago.

Grimsby Beach

The Women's Improvement Soci-
ety held its annual meeting Monday,
August 25th, in the Tabernacle. Mrs.
John Pearson, the president in the
chair. Mrs. R. B. McGregor, the
secretary, presented the annual re-
port.

In reviewing the season's work of
the society, I am sure all must say
"Well Done" for with very little ef-
fort and a great deal of pleasure we
have accomplished much both finan-
cially and socially.

The grounds have been kept in ex-
cellent condition and most heartily
by the setting out of flower beds and
shrubs arranged by the ladies. A
very fine entrance to the park has
been laid out and shrubs and flowers
planted along either side, for which
the thanks of the residents are extend-
ed to the kind generosity of Mrs.
Mann, of Brantford.

The disastrous floods of the lake
upon our shore line has been a mat-
ter of great concern to all our resi-
dents and in the hope of replenishing
the beach five large crabs have been
sunk at points on the shore, these
crabs being loaded down with boules
weighing in all very many tons,
and the filling in of the space between
the water line and the first abutment
of the pier with a large crib, this be-
ing capped with cement to a thick-
ness of about three feet, strongly re-
inforced with iron bars. Towards the
cost of this work our society contrib-
uted three hundred dollars.

Afternoon bridge parties and other
social events have been numerous
during the season.

On Aug. 4th a very successful busi-
ness was held. Many articles were of-
fered for sale, and a very fine
supper was served in the Bell Park
house two hundred people being fed
very heartily. A large share of the
provisions was purchased from the
merchants of the Town of Grimsby.

The Society held its annual Women's
Sunday July 26th. Mrs. Jowett of
Smithville was the speaker of the
day. The Society acknowledges its ob-
ligations to Mrs. Bean and Miss Her-
rington of Grimsby for very fine vocal
selections.

By the capable hand of Mrs. Lind
Martin and Mrs. A. E. Clarke the
church has been made beautiful
Sunday with an abundance of natu-
rally arranged flowers.

We have been very glad to wel-
come several new residents and hope
they may find joy and happiness in
our midst for many seasons to come.

The Grimsby Reporter has written as of
several, who through long years of
happy association had become very
dear to us. Their cheery smile and
Christian happiness will long remain
a pleasant memory.

We feel sure that it is the sincere
wish of all Grimsby residents that Mrs.
Pearson may occupy for many years
to come the position she so capably
fills as President of our Society.

Laura McGreger, Secretary.
The Treasurer's report was pre-
sented by Mrs. Martin. The report

AN INTERESTING HOME

It may be said that many of the
homes in Grimsby are numerous
residents have the enjoyment of liv-
ing in. So old are many of these
homes, but their well kept furnishings
recreate the atmosphere of long
ago.

Such a home is the homestead of
Lorne Book on the shore of Lake On-
tario. It is known that the house in
which he lives today was built long
before 1804 and over a hundred years
ago it was repaired by Mr. Book's
great grandfather when all the mud
and straw with which the chimneys
were lined for warmth was removed,
the house framed and later remodel-
ed the way it is now. This was where
Mr. Book was born and he has lived
all his life in this historic dwelling as
did his father while his great grand-
father made his will there in 1804.

It must surely be interesting to see
a tree grow up along with oneself.
This is Mr. Book's experience. A
mighty horse chestnut which now
measures a good four feet in diameter
was planted when he was but a lad.
A young maple close by which came
up by itself, could be called a self-
made tree since it planted itself, grow-
ing into a huge spreading beauty.
This is the white cherry planted by
his father, its characteristic gauged
old trunk towering to the side of the
verandah.

Spruce evergreens were planted
long ago to make a nice hedge which
was to hem in a croquet lawn but the
trees grew too big and now make a
fine wind break. Many wonderful
and very large sweet cherry trees and
large apple trees are at the rear of
the house.

Mr. Book is Grimsby used to run
along the beach next to the water's
edge, but the bridge across the ravine
was washed away so often that an in-
land road was made and a small
bridge was placed there instead. For
some reason the beach has not chang-
ed so much here as up north. Mr.
Book still has charge of his farm and
he and his trusty horse, Lorne, which
he raised from a colt, are constant
company. The horse conveying him
to all points on his large fruit farm.

Mr. George Marr, son-in-law of
Mr. Book, who also resides in the
home, is the flower gardener and a
lovely garden he has in this splendid
environment. The rose-hued white
arbor with its small white gate is a
fitting entrance to the perennial gar-
den which shows up so many varied
colors. In the background, a restful
spot set off by itself with
only these ceaseless washing of the
waves to whisper or roar through the
trees.

County Picnic At Vineland

(Continued from page 4)

She said briefly of the 15
branches of the Institute in Lincoln
county, 1100 branches in Ontario and
the 60,000 members in the Dominion,
wishing of the great work which they
are doing.

Mrs. McDonough brought greet-
ings from Wentworth County while
E. C. Graves, M.L.A. for St. Catharines
commented the appointment of
Mr. Fairbairn as Deputy Minister of
Agriculture.

"We are very apt in working on
our own farms to become circum-
scribed with our own personal prob-
lems and feel that because the condi-
tions under which we are working are
not as we would like to have them
that agriculture is going down hill,"
declared J. B. Fairbairn. He then
spoke of conditions as he found them
in a recent visit through the Provinces
and while he stated that conditions
as far as the fruit and vegetables were
concerned were not as the Department
would like them and that while the
markets were not as desired, yet there
was a greater opportunity in Ontario
for young men scientifically trained
than ever before. He returned from
his trip enamored with the opportuni-
ties and possibilities of Northern On-
tario. It is pulp wood country today,
he said, but ten years hence it will
be wonderful farming land.

He spoke of the experiment to be
tried this year in the central packing
of apples and their shipment to the
British market, and stated that if this
experiment is successful he will be
ready and willing to co-operate with
other sections in central packing pro-
jects.

He announced that provided a bad
harvest made for the selection of five
girls from every county to visit the
Royal Winter Fair this autumn as
guests of the Government, as a re-
ward for their standing in county con-
tests for household science.

The Deputy Minister spoke of the
promising situation as affecting Cana-
dian hay and dairy cattle, which he
stated were growing more and more
in demand from the United States.
He spoke of the importation into On-
tario of products grown here and in
this connection presented his appeal
that Ontario people insist on Ontario
products.

and in conclusion he
stated that Ontario's great-
est asset was her young people and
that more and more are re-
turning to the farm, forming the
greatest outlook for the future of the
Dominion today.

The count was a very successful
one. 15 farmers gathered during the
morning, ours, ate their dinner in
groups, listened to the addresses, and
then indulged in sports.

showed \$1.00 paid and a balance
of more than \$5.00 in the bank.

Officers for 1931 are as follows:
Pres. Mrs. John Carson, Toronto;
1st Vice-Pres. Mr. Harry McKelvin,
Kitchener; 2nd Vice-Pres. Mrs. John
Bushard, Brantford; Secretary, Mrs.
R. B. McGreger, Grimsby; Treasurer,
Mrs. Hugh Martin, Grimsby.

SAFEGUARDING FRUIT
INDUSTRY

General satisfaction is being expressed by fruit growers and shippers of the Niagara Peninsula with the new Order-in-Council which has been passed by the Dominion Government making effective dumping duties which are designed to protect the interests of Canadian fruit growers.

Surplus crops in California and other sections of the United States have resulted in the sending across the border of large shipments of pears, peaches and other fruits to Canadian markets with the result that prices have fallen to a point where cost or less than cost of production is being secured by Ontario producers, a condition which is working a serious hardship on them.

The action of the Dominion Government in placing a sufficiently high duty on United States fruits at this time when pears and peaches are beginning to come into the market, will operate to maintain prices at a reasonable level. It will ensure the producer a return in keeping with his production costs and will therefore be welcome. An adequate measure of protection against the dumping of surplus products of other countries onto the markets of this country is essential especially at certain seasons of the year if the fruit and vegetable growers are to prosper.

Grimsby Beach

Mr. Joshua Dyke of Fort William spent two weeks' vacation with his brother, Rev. J. H. Dyke.

Count Nobili, whose family home is at Mt. Pucio, Italy, but who at present resides in Chicago where he is engaged in literary work is also a visitor at this home. Count Nobili is a member of the International Society of Intellectuals, which consists of writers and scholars from various countries.

Miss Beatrice Dyke, Mrs. Bae. of New York is holidaying with her parents. Miss Dyke studied under Richard Hagerman and has coached opera soloists and is now singing in concert and over the radio in New York and vicinity.

Mrs. P. W. Marsh, (nee Stephanie Jones) has arrived from Sydney, Australia, and Marjorie Jones from Philadelphia Temple University, to enjoy Grimsby Beach at the old cottage with their mother, Mrs. Jones. Miss Jean Harold of Brantford is also enjoying a few days at the cottage.

The Sunday school picnic was successfully held at Bell Park last week when the kiddies put in a happy afternoon with their enthusiastic teachers and helpers of this fine organization.

The Week's News of
The Surrounding District

BEAMSVILLE

Reeve Osborne and members of the council were in Guelph on Wednesday on a tour of inspection of the Welland and Hamilton area, considering the idea of establishing a joint farm along the same lines in the near future.

Ed. Ryckman has been spending a week's vacation with Toronto relatives.

Isaac H. Marlett, accompanied by his sister from Kansas City, Mo., are in Grimsby. It is just half a century the west but every year it possible to return to view the old scenes of his early life.

Miss Maiss Wheaton, of the high school staff, is touring New Brunswick with Toronto relatives.

Mrs. Charles Auld and Miss Auld left on Monday for a trip down the St. Lawrence.

Miss Joak Farr, of Brantford, is visiting Miss Grace Southward.

Robert Moore and family of Niagara Falls are the guests of John and Mrs. Butler.

Miss Edith Hicks is holidaying on Georgian Bay.

Wanted by the Chief Constable of Beamsville, Phillip Kopyovitch, of Silvertown avenue, was arrested in Toronto on a charge of theft. The prisoner, who is alleged to have stolen a rim and tire in Beamsville a week ago, will be brought back for trial.

An entrant in singing from Beamsville at the exhibition will be Mrs. Charles Tallman in the soprano class. Miss Maud Brown will act as accompanist. Elwood Comfort is also another member of the musical fraternity from here, singing with the exhibition chorus.

Earl Lurham, Hamilton, is spending the week with his parents, John and Mrs. Durham.

While endeavoring to cut through a string of east bound traffic at the corner of King and Mountain streets on Friday morning, Charles Orth, Clinton township, had his car rammed.

There will be two new members on the staff of the high school at the opening on Tuesday, September 2. Miss Coomber takes Miss D. Maas' position in the household science department, and Miss Audrey Wilson is an added member of the staff.

At the public school, Miss Mary Struthers fills M. Ghent's position, later being promoted to the principalship, and Miss Edith Parlow will be in the junior second room.

Misses Frances and Jean Book are spending the week at Niagara Falls, N.Y.

Miss B. Ethelington has returned from a visit with Wagona park friends. W. and Mrs. Southwell, West Flamborough have been the guests of George and Mrs. Coomber, Thirty Mountain.

Alex. Bennett, Toronto, is spending some holidays with John and Mrs. Bennett, Clinton township.

At a meeting of the executive of the Horticultural society on Wednesday evening it was decided to dispense with the fall flower show this year, as after a survey of the situation the members were of the opinion that the drought had been detrimental to the majority of gardens and that a showing of flowers would not be available. For a fall premium a gooseball will be ordered. It will be a first-class standard ball for each member and a prize will be awarded next June show for the best single specimen from these premiums.

Close to 80 members and friends of the Women's Institute attended the annual summer picnic at the home of George and Mrs. T. Lister at the lake on Tuesday afternoon. A long program of games and contests of a varied and amusing nature had been arranged.

range for the occasion which the ladies decided was one of the most enjoyable institute outings in a number of years.

A grass fire on the former Patterson farm in the south section of the township gave the chemical truck a run on Tuesday afternoon. The flames for a time threatened the farm buildings, but were finally pounded out by neighbors.

Mrs. Annie Hewitt is visiting her daughter, Mrs. Sussex, at Wyoming. Oak Leaf Rebecca Lodge held its yearly basket picnic at Port Dicks house Thursday.

Mrs. Oliver Culver and little son, of Hamilton, are visiting the former's parents, Frank and Mrs. Hilds.

Delegations from the boards of education of Beamsville, Grimsby, Smithville and Niagara-on-the-Lake went to Toronto on Monday to meet the superintendent of education in reference to a recent change in the act cutting the high school district refund from the various high schools formerly received the full amount of their assessment back from the county, under the change in the act only a percentage is now to be paid, the balance, or whatever amount may be necessary, deducted to pay for the tuition of county pupils attending schools outside the high school municipalities.

The Ball v. Bowman case has been settled by the decision of Judge Bales of Simcoe. The case was in the Lincoln county court several months ago. The plaintiff, Mrs. Ball, owner of Polly's Place, just three miles east of the corporation, asserted her claim to a strip of land along the east side of the main doors of the barn were on that side and Mr. Bowman had no access for his cattle if his means of entrance were cut off.

The plaintiff has been awarded the property and the defendant must pay costs.

A lot of evidence was given by both sides, various old tenants being called on to give opinions as to the dividing line. Mrs. Ball wanted the property for a fruit stand and stock shed. She considered it her property and it being used by her neighbor for his cattle.

The property was the original home-stand of the Bush family and the late George Bush, formerly governor of the county jail, lived on this land, but as the property was usually nearly all contracted at a stated price before shipping time, it meant that only a limited supply could be secured to ship in baskets, which had the effect of giving a high price to the grower. Quite a number of growers contracted their crop at a price ranging from \$75 to \$80 per ton. Some of the earlier varieties are already so well covered that picking will commence next week, something quite unusual for the month of August.

From present indications it would appear that the wine companies were going to pay for their supply of grapes this season on the basis of the net price received by the dealers throughout the district for those sold in baskets. In former years some of the companies bought on this basis, but as the crop was usually nearly all contracted at a stated price before shipping time, it meant that only a limited supply could be secured to ship in baskets, which had the effect of giving a high price to the grower. Quite a number of growers contracted their crop at a price ranging from \$75 to \$80 per ton. Some of the earlier varieties are already so well covered that picking will commence next week, something quite unusual for the month of August.

The monthly meeting of the United Church L.A.S. was held in the school-room of the church on Wednesday afternoon, August 20, with a fair attendance and the president, Mrs. Evans, in charge. Meeting opened with the usual devotional exercises, the Scripture lesson being read by Mrs. Pettie. Minutes of last meeting were read by the secretary, Mrs. E. Garmer. After routine business the afternoon was spent in making quilt blocks. The meeting closed with a hymn and prayer by the president.

Miss Lily Fates is spending a few days with friends at Cape May, N.J. Mrs. Chisholm and son, Donald, of Hammondsport, are visitors with Mrs. E. Gorring.

Messrs. Herbert Yates and John Murphy have gone north on a motor trip.

MacKinnon, of Toronto, is visiting his son, Miss Kate McAllister, Miss Marion Davies, of Hamilton, is a visitor with her cousin, Miss Violet Garmer.

Mrs. N. Laidman was a visitor with her friend Mrs. W. A. Johns at Stratford, and with relatives in Hamilton during the past few days.

The W.I. are having the Memorial hall decorated.

Miss Pearl Evans is enjoying a week on the Muskoka lakes.

Miss Albert Smith has returned from a pleasant two weeks' vacation at Muskoka.

Miss Iva Mulligan, of Calverville, is a visitor with her sister, Mrs. Louis Martin.

Mrs. Wm. Vail spent the weekend in St. Catharines, visiting her sister, Mrs. Chas. Wartell.

Dorothy Southwell of West Flamborough who has been spending her holidays with Stella Coombe returned home on Sunday. Stella returns with her car.

Mr. and Mrs. Wm. Kemp were in Welland on Sunday visiting Mr. and Mrs. Jamieson.

Mrs. C. B. Water, Jr. and Billy of Toronto and Mr. E. Hurd were in Toronto on Friday at the opening of the exhibition to see the Women's Swiss.

Adley Elliot who has been spending his holidays in Hamilton returned on Sunday.

Robert Simpson of Auburn, N.Y., Mr. Simpson of Victoria, B.C. and Mr. and Mrs. Wm. Coombe and Mr. Philip Burns of Hamilton, spent the weekend with Mr. and Mrs. Charles Constable.

Albert Barrett, Brantford spent a few days visiting Emerson Grosz. Mrs. Barrett of family are spending the week in Toronto.

Graham Clark of Mrs. J. Clark were in Brantford on Sunday.

Mrs. Wm. Vail spent the weekend in St. Catharines, visiting her sister, Mrs. Chas. Wartell.

Dorothy Southwell of West Flamborough who has been spending her holidays with Stella Coombe returned home on Sunday. Stella returns with her car.

Mr. and Mrs. Wm. Kemp were in Welland on Sunday visiting Mr. and Mrs. Jamieson.

Mrs. C. B. Water, Jr. and Billy of Toronto and Mr. E. Hurd were in Toronto on Friday at the opening of the exhibition to see the Women's Swiss.

Adley Elliot who has been spending his holidays in Hamilton returned on Sunday.

Robert Simpson of Auburn, N.Y., Mr. Simpson of Victoria, B.C. and Mr. and Mrs. Wm. Coombe and Mr. Philip Burns of Hamilton, spent the weekend with Mr. and Mrs. Charles Constable.

Albert Barrett, Brantford spent a few days visiting Emerson Grosz. Mrs. Barrett of family are spending the week in Toronto.

Graham Clark of Mrs. J. Clark were in Brantford on Sunday.

Mrs. Wm. Vail spent the weekend in St. Catharines, visiting her sister, Mrs. Chas. Wartell.

Dorothy Southwell of West Flamborough who has been spending her holidays with Stella Coombe returned home on Sunday. Stella returns with her car.

Mr. and Mrs. Wm. Kemp were in Welland on Sunday visiting Mr. and Mrs. Jamieson.

Mrs. C. B. Water, Jr. and Billy of Toronto and Mr. E. Hurd were in Toronto on Friday at the opening of the exhibition to see the Women's Swiss.

Adley Elliot who has been spending his holidays in Hamilton returned on Sunday.

Robert Simpson of Auburn, N.Y., Mr. Simpson of Victoria, B.C. and Mr. and Mrs. Wm. Coombe and Mr. Philip Burns of Hamilton, spent the weekend with Mr. and Mrs. Charles Constable.

Stoney Creek

On Monday night, Aug. 18, Dr. W. Clark and Harvey Clough had their autos stuck in a hole while E. Boden had his premises broken into and quantity of cigarettes and other articles stolen. The same night Harry Weller had the same gasoline pump broken and some gasoline taken. The next day the cars were recovered, the Clough car near Alton and the Clark car in the ditch on the highway.

The painting and decorating of the interior of the United church, which has been going on for some weeks, is now almost completed.

A number of the members of the Women's and Stoney Creek Women's Institutes are contributing jars of canned fruit, vegetables and meat, all artificial flowers, for exhibition on the exhibit in the Women's Institute building.

Residents of that part of Stratford agency lying north of Main street and just east of the city limits have been feeling the effect of the long dry spell to such an extent that the waterworks department in Hamilton and it looks as if help would be forthcoming from this source.

From present indications it would appear that the wine companies were going to pay for their supply of grapes this season on the basis of the net price received by the dealers throughout the district for those sold in baskets. In former years some of the companies bought on this basis, but as the crop was usually nearly all contracted at a stated price before shipping time, it meant that only a limited supply could be secured to ship in baskets, which had the effect of giving a high price to the grower. Quite a number of growers contracted their crop at a price ranging from \$75 to \$80 per ton. Some of the earlier varieties are already so well covered that picking will commence next week, something quite unusual for the month of August.

The monthly meeting of the United Church L.A.S. was held in the school-room of the church on Wednesday afternoon, August 20, with a fair attendance and the president, Mrs. Evans, in charge. Meeting opened with the usual devotional exercises, the Scripture lesson being read by Mrs. Pettie. Minutes of last meeting were read by the secretary, Mrs. E. Garmer. After routine business the afternoon was spent in making quilt blocks. The meeting closed with a hymn and prayer by the president.

Many Changes at

(Continued from page 1)

and was up about six feet it is said an old crane came along and told the owners that it was not built right and such proved to be the case for the water when it rained ran in instead of out and rotted the boards in a comparatively few years. It was subsequently condemned and had to be taken down. An echo too harboured itself within its walls and defied all efforts to remove it. Speakers and singers, however, grew accustomed to this and wonderful gatherings were held under its roof, some of the greatest orators living at that time giving inspiring messages. Among these were such world renowned men as T. De Witt Talmadge, the great Spurgeon, Henry Ward Beecher, Dr. McIntyre, Sam Jones and many others.

Singers too were brought from far and wide to stir the hearts of the people and often a crowd of 15,000 people would gather in the church. They would drive as far as forty miles with horse and rag and often 1000 rats and horses would be gathered in this vast place.

To accommodate the people who gathered from many points and also on the boats which headed their passengers twice a day, Park House hotel was built and later Lakeview, a big hotel, was erected at the water's edge, where many notable people stayed.

The park at that time was furnished with every convenience, including waterworks, their own electric light plant, provision, book, drug and fancy stores, post office, telegraph and telephone offices, photograph gallery, butcher shops, refreshment stands and barber shop and because it is located in Canada, garden an unending supply of vegetables and fruits was available.

Rules for the Sabbath Day were very strict and even the boats were not allowed to land passengers including row boats. It is said that only on one occasion was an exception made and that was when the great Peter McIntyre of Toronto through necessity had to come on a memorable Sunday on the steamer which docked at Grimsby Park. Every body had to be in by ten o'clock when lights went out and anyone caught making a noise was taken before a committee and the boat was obliged to stay inside the park as for sometimes as long as three weeks.

But as times changed rules became less strict and quacks, plays and amateur events were held.

The Boys Tabernacle was built by the boys themselves as they would feel it was their own, about fifty years ago. Later it has been improved to accommodate a larger number.

In 1914 a very bad fire occurred at which about thirty-eight cottages were burned along with many much prized trees. In 1916 Lakeview hotel was burned down and again in 1927 nine cottages were destroyed by flames. Excellent fire protection is at present afforded by the Beach Fire Brigade and the Grimsby Fire Department, both of which respond in the event of fires.

The company which had been operating the park found that the outlays exceeded the revenue making it a losing proposition in spite of the crowds who visited the park and it went into liquidation again. It was then taken over by Mr. H. H. Wylie who removed the enclosure and brought in a subway, a dance hall and moving pictures. This continued for a number of years but after Mr. Wylie's untimely death things did not seem to go so well and in 1927 the old temple and midway were removed and gradually a delightfully quiet and restful summer resort of homes is being established.

Cottagers feel it is safe to allow their kiddies to frequent the beach in a subway, a dance hall and moving pictures. This continued for a number of years but after Mr. Wylie's untimely death things did not seem to go so well and in 1927 the old temple and midway were removed and gradually a delightfully quiet and restful summer resort of homes is being established.
